LEGEND

Compostable

Compostable packaging is packaging that will break down naturally when left in the right environment.

Recyclable

Waste can be converted into a new product

Sustainable

Sustainable packaging helps to reduce the impact on the environment

Refrigeratable

Product will not break; crack, shatter or become damaged in some way when it's used in the refrigerator or freezer

Oil Resistant

The material resists oil and will not leak out

Ovenable

Product will not break, crack, shatter, or become damaged in some way when it's heated in the microwave or oven.

LEGEND

Hot Sealable

Different types of packaging options you can use to enhance product & customer experience!

FDA certified

Approved for contact with edibles by the Food and Drug Administration (FDA). FDA defines food contact substances as "any substance that is intended for use as a component of materials used in manufacturing, packing, packaging, transporting, or holding food."

Food Grade

It indicates that the material used in the product is considered safe for food contact.

Custom Packaging

Customization is the key. Providing customized ecocare tableware and takeaway packaging services to some of the leading food chains and delivery giants of the country.

Microwaveable

Product will not break, crack, shatter, or become damaged in some way when it's heated in the microwave or oven
